

JANUS HONORED WITH 2018 WESTFAIR COMMUNICATIONS FAMILY-OWNED BUSINESS AWARD

STAMFORD, CT., February 20, 2019 – JANUS Associates, the nation’s longest operating cyber security and privacy consultancy, celebrating its 30th year, is being honored as a family-owned business in Westchester and Fairfield counties in the 6th annual Westfair Communications Family Owned Business event. This event celebrates businesses in Westchester and Fairfield counties who have built and maintained companies in the community – and in the family.

"We are honored as a company, and I am honored personally for JANUS to have been chosen to receive this award" said Patricia Fisher, President and CEO at JANUS. "30 years ago, I made a commitment to the cyber security industry, to Fairfield County, and to my family that we would offer the highest-quality security services to our clients and work in partnership with them." Ms. Fisher went on to say "We have kept our word to the community while expanding nationally. Our concept of the importance of family has remained true from our founding – that family must always work to maintain the respect of our colleagues and that family includes our extended family – our employees. Our recruiting ads begin with, 'Come join a company that will care about you and treat you as family.' We continue to believe this philosophy has been key to our success."

The company will be honored at Westfair Communications' award ceremony on March 5 at 1133 Westchester Ave. in White Plains. Other notable winners this year include Stew Leonard's, William Raveis Real Estate, Mortgage & Insurance, and Zyloware Eyewear.
